Timing your transfer

As you've probably noticed, it's not uncommon to see major currency pairs fluctuate - sometimes by as much as 10% in a matter of weeks, as illustrated by the GBP/EUR variations between July and October 2016 in the below chart.

What we'll do to help you transfer at the right time, is give you market guidance. We do this through friendly consultation in person or over the phone, helping give you the simplified facts for you to base your decision on. We also offer **Rate Alerts** —where you can set up email and SMS alerts to be sent to you when your target exchange rate is met, at the price you requested.

Transferring anywhere and at any time

No matter how much money you're sending or how often, your transfers will be quick and easy. All you have to do is:

1. Open an account

It's free and there's no obligation to make a transfer

2. Agree your currency amount and exchange rate

You can do this either online, over the phone, in branch, or via our app

3. Tell us where to send the currency

This is usually in the form of an IBAN or bank account details

4. Make a payment to us

You can do this by debit card or by transferring money into our bank account

The currency will then land in your bank account the same day.**

***Based on sending pounds to euros, with payment made before 1.30pm on a weekday. After 1.30pm will result in a next-day payment.*
